Profile

Test Analyst with experience in manual and automated testing across web, mobile, API, and chatbot platforms. Skilled in test case design, regression testing, integration testing, defect management, and test automation using Appium, Selenium WebDriver, and Cucumber BDD. Contributed to quality delivery across Discovery and Surge Africa through structured testing, defect traceability, and collaboration with cross-functional teams.

Professional Experience

Intelliscient Technologies – Johannesburg, South Africa

Test Analyst (Seconded to Discovery) | November 2025 – Present

- Develop and execute test cases based on provided test scenarios using Jira
- Identify defects and collaborate with developers to verify resolutions.
- Maintained and executed a test suite of 400+ chatbot test cases to support regression and release testing.
- Executed functional testing for chatbot solutions, validating conversational flows, responses, and business rule compliance.
- Execute regression testing.
- Collaborate with developers, BAs, and product teams to ensure quality alignment.
- Contribute to test coverage and documentation standards.

Junior QA Engineer | September 2025 – October 2025

- Contributed to functional and regression testing across core business workflows.
- Developed automated test scripts using Selenium and Cucumber BDD.
- Participated in defect tracking, test execution, and release validation activities.
- Collaborated with cross-functional teams to ensure quality delivery and system reliability.

Junior QA Engineer (Seconded to Surge Africa) | February 2024 – March 2025

- Developed and maintained automated test scripts for an Android mobile application using Appium with Selenium WebDriver and Cucumber BDD.
- Analysed functional requirements and designed comprehensive test scenarios and test cases.
- Performed API testing using Postman to validate request and response behaviour, data integrity, and system integration.
- Executed database operations (CRUD) using pgAdmin and verified cloud data accessibility within AWS environments.
- Developed user interface designs and contributed to product usability improvements.
- Identified defects and collaborated with the developer to verify resolutions.

Education

Diploma in Information Technology – Software Development | Nelson Mandela University | February 2021 – December 2024

- Completed comprehensive program covering software development, testing, and systems analysis.

Higher Certificate in Information Technology – User Support Services (Cum Laude) | Nelson Mandela University | February 2020 – December 2020

National Senior Certificate | Linkside High School | Jan 2015 – Nov 2019

Certification

Toastmasters International – Linkside High School | Jun 2018 – Sep 2018

- Developed public speaking and presentation skills.

Major Modules:

Technical / Programming: Python (Data Analysis), C# , SQL

Software Development & Systems: System Analysis, System Development, Database Design

Technical Support & Systems: Networks, System Software, Troubleshooting

Skills

Testing & QA: Manual & Automation Testing, Test Case Design, Regression, Integration, End-to-End, API Testing, Selenium WebDriver, Appium, Cucumber BDD

Tools & Platforms: Postman, Jira, Confluence, AWS, pgAdmin, Firebase Test Lab

Soft Skills: Analytical & Detail-Oriented, Problem-Solving & Critical Thinking, Communication & Collaboration, Time Management & Prioritization, Adaptability & Continuous Learning, Presentation Skills

Languages: English – Fluent, isiXhosa – Fluent

Project Work

Primary Health Care System (Windows Application) | Nelson Mandela University

- Contributed to the development of a Healthcare Management System to streamline patient records, staff data, and appointment tracking.
- **Technologies:** C#, MS SQL, HTML5, CSS3, JavaScript, Bootstrap
- **Key Responsibilities:**
 - Designed Call Diagrams, Use Cases, and Sequence Diagrams using UML.
 - Conducted Business Requirements Analysis and System Analysis; presented findings to stakeholders.
 - Performed Unit Testing to ensure code reliability and functionality.
